Eligibility

Any paper accepted for this conference will be eligible for this award.

Process

Each eligible presenter will be assessed by the members of the Evaluation Committee and assessed against the criteria below.

Members of the Evaluation Committee shall decline to assess any presentation if they have the following special relationships with the author(s) of the presentation accepted: relative or co-author. A decision on the award for the best presenter will be made at the concluding session of the conference, with the presentation of the award made at this session.

Selection Criteria

Presenters will be assessed and judged based on the criteria described below. Each presenter will be given a score of 0 – 10 (where 0 is the lowest and 10 is the highest score) against each criterion.

The score allocated for each presenter by each assessor shall be multiplied by the weighting and then calculated. The highest scoring presenter shall be recommended for the **Best Presenter Award**. Where two or more presenters receive the same total score, all the presenters will be awarded.
